Mr. Jack K. Bryant
Division Engineer
Project Planning and Pollution Control
108 West 2nd Street, Room 226
Los Angeles, California 90012

Dear Mr. Bryant:

I am in the process of completing the grading on the property owned by Equitable Savings and Loan, formerly known as Southwest Conservation Disposal, involving lots 93, 94 and 95 of Tract 4671 at 20300 South Main Street.

The approved plans for that Site required 3 ft. of clean earth cover to be brought up to a plus 35 sea level elevation in the center then tapered toward the streets on all sides.

It is my wish that I can get your approval to receive liquid waste from vacuum truck waste haulers and mix this in with the dirt as I go. Also, I should like to mix liquid into that mantle already deposited and attempt to settle, compact and level those areas that are settling.

Please let me know if such permission is possible.

Sincerely,

Henry C. Soto
President
